

About this game

This game is a successful attempt at demonstrating that a faux-3D rendering was possible on rewtro. Hope you enjoy it!

Tips

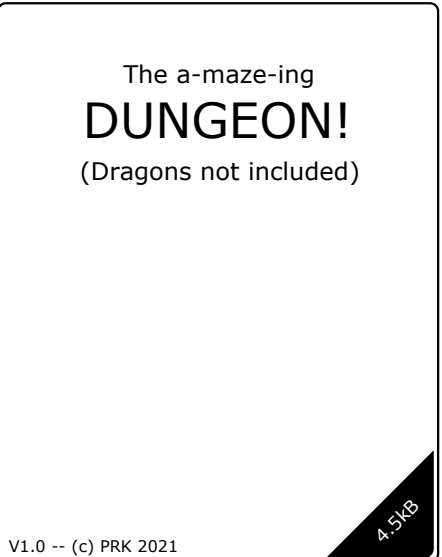

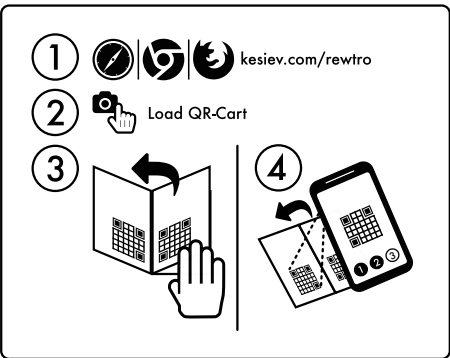

There must be some use for these orbs... It would be nice to draw a map, but I have no scroll to spare.

Scores

Score? What do you mean by 'score'? Here, take 1,000 points and go away. If you want to brag, find the easter egg.

How to play

Use LEFT/RIGHT to turn and UP to go forward. Only cowards back off, so no BACK button. User button A to interact with environment (orbs are auto-collected).

The story

You wake up in a dungeon. There is no white house nor mailbox. Good luck.

The game

Explore and try to find the way out. Misc items will help you on your way.
